Camp Koch Overview

Girl Scouts of Southwest Indiana's resident camp facility, Camp Henry F. Koch, covers approximately 500 acres of rugged woodland in the hills along the Ohio River near Cannelton, IN. It is maintained and protected by a year-round resident Ranger. Several hiking trails to points of natural beauty within the camp provide an opportunity to explore nature. What you should know when visiting the site: The land is difficult; it includes steep hills throughout the facility and requires individuals to walk long distances uphill and down to get from activity to activity.
