Purpose

Junior Digital Leadership

You can explore the digital world with a phone, tablet, or laptop. Digital means finding or sharing information online. It's also connecting with others. You can chat with friends, look up information, or watch funny videos. This is the power of technology!

People build technology and the digital world. They code websites and apps. They make digital art. And you can, too! In this badge, explore how you can use technology to learn, share, act, and help others in the digital world.

Steps

1. Explore how you connect with others
2. Discover your digital footprint
3. Consider the future
4. Design a digital community
5. Create content for change

Purpose
When I've earned this badge, I'll know how to protect myself and others online. I'll know how technology can make the world a better place.

Junior Shapes in Nature

How are butterfly wings, seashell flutings, snowflakes, and lightning alike? They're all patterns in nature. A **pattern** is when something repeats itself. Like a checkeredboard or stripes on a tiger.

Nature is a talented artist! It uses patterns, based in math, in many creations. In this badge, explore patterns found in nature and use math to create your own.

Steps

1. Identify symmetry in nature
2. Explore bilateral symmetry in nature
3. Create nature-inspired art with circular symmetry
4. Find fractals in nature
5. Search for the Fibonacci sequence

Purpose
When I've earned this badge, I'll know about symmetry, fractals, and the Fibonacci sequence. I'll have identified and made patterns inspired by nature.
